

These general-purpose 19" rack-mount shelves are capable of supporting many electrical instruments. They fit into a standard EIA rack-mount cabinet, and they are available in standard rack-mount heights. The shelves come with ventilation holes on the bottom for instruments that require cooling.

Rack Mount Shelf

Features:

- Fits standard 19" rack mount cabinets, built to EIA-310-D
- Available in standard rack mount heights
- Capable of supporting most electrical instruments of up to 150 pounds
- Ventilation holes on the bottom allow for instrument cooling
- Velcro strips are included to help secure instruments on the shelf
- Mounting hardware available upon request

Model Selection:

Model Number	1.75" units	Height	Depth**
